Real-time coaching
infrastructure

SALES REPS

A two-day workshop.
A CRM.

92% → 23%

METHODOLOGY ADHERENCE • 90 DAYS

The rep who crushed the roleplay.
The quarter where the pipeline looked full.
The close rate that told a different story.

© One Click *Coaching*

Four minutes after the call ends, the rep has *coaching*.

DISCOVERY

Strong problem statement — moved to solution 3 min early. Let the pain breathe.

QUALIFICATION

Economic buyer present. Didn't ask about decision criteria. That's where deals stall.

NEXT CALL

Open with: "Help me understand how that connects to your priorities."

Not a chatbot. Manager approves every card.

Five steps.
Every call. No exceptions.

Zero rep clicks. Works off Fathom + HubSpot.

This is not a training problem.
It is a *reinforcement* problem.
And you have been solving it
with more training.

The manager doesn't do the work.
They *approve* the work.

That's not same-day feedback.
That's *infinite coaching bandwidth*.

Managed by the leader. Internalized by the rep. Built toward
mastery — not just exposure.

What you're actually losing:

- 01 The deals you would have won.
Methodology abandoned by week six.
- 02 The rep who plateaued.
Crushed the roleplay. Reverted on the live call.
- 03 The re-training tax.
The second training engagement you'll buy next year because the first one decayed.
